Abonett Ltd.

Category: Bakery products

Abonett offers 100% natural and low calorie crackerbread products, using environmentally friendly raw materials. Crackerbreads are available in 20 flavors and they are made of high quality ingredients, preserve their nutritional value throughout production, are made from whole grain flours, are high in fiber, have a low calorie and salt content, are free of yeast and added chemicals and contain no gene altering additives. Our crackerbreads are offered in the following editions: super food based, bio/organic, gluten-free, vegan, high protein, sandwiches with sweet/salty fillings, kosher.

Abonett products are the market leaders on the Hungarian market. We work with modern production technologies and advanced quality assurance systems (HACCP, IFS). Our Bio/Organic products are developed in line with EU and domestic regulations. Endorsed by our extensive industrial knowledge, expandable production capacity and expertise in the extruded and crackerbread products, we offer our services to companies interested in launching their private label brand of extruded crackerbread products. Our support is extended from creating the product concept, through product development, tasting of samples, up to finalization of the end product.

Grand Tokaj Plc.

Category: Wine

Grand Tokaj is the largest winery in the historic Tokaj-hegyalja wine region bearing the title of a UNESCO World Heritage Site and is the guardian and protector of our national winemaking tradition. The company is the flagship of wine production in the region being the largest winery – possessing a total of 66 hectares of vineyards and providing for 35% of the regions total. As the integrating force of the region we purchase grapes from over 1200 small producers. Thanks to developments the winery is now able to manufacture products to a higher standard from grapes cultivated both on its own land and procured from outside producers. A storage tank facility of 66,000 hectolitres capacity was opened in 2014 providing the winery the technological conditions necessary to produce wine of an international standard and a bottling plant with an annual capacity of 10 million bottles.
